

The map displays the planning area for Cluster 6.3, centered around the town of Rötze. The area is divided into five distinct planning zones, each color-coded and labeled with a KOL number: KOL-63010 (light pink), KOL-63020 (light green), KOL-63030 (light blue), KOL-63040 (light purple), and KOL-63050 (light orange). A red line outlines the overall boundary of the cluster. The map includes numerous place names, such as Rötze, Hahndorf, and Hahndorf, and shows the surrounding landscape with roads, rivers, and forests. A legend in the bottom right corner identifies the symbols used: a red dot for 'Anschluss-Adressen (final)', the colored areas for 'Kollokationsflächen' (KOL-63010, KOL-63020, KOL-63030, KOL-63040, KOL-63050), and an orange line for 'Bau-Planungs-Abschnitte (EDIT)'. A scale bar at the bottom right indicates distances from 0 to 2,000 meters.
